**Community Garden Guidelines and Rules**

**Gardeners agree:**

- To have something planted in my garden plot, and keep it weeded or mulched. I understand this is important for the overall appearance of the garden.
- If the gardener must abandon the adopted plot(s) for any reason, to notify the garden plot coordinator.
- To be conscious of the way plants may spread, and to not plant invasive species.
- To recoil any water hoses in the proper location after use and leave the water pump on.
- To keep trash and litter cleaned from the plot as well as from adjacent pathways and fences, and to take trash away for disposal.
- To participate in the fall clean up of the garden. All debris will be removed by Nov. 1<sup>st</sup>.
- To help sustain shared pathways, so people can walk and the wheelbarrow can get through. Do not block paths with buckets, rocks, or anything else.
- To plant tall crops where they will not shade neighboring plots.
- To pick only my own crops unless given permission by the plot user.
- To not grow any illegal crops.
- To not bring pets to the garden.
- To place biodegradable waste in the compost pile, located in southeast corner of garden area (no meat or bones, which would attract rodents)
- To place rocks in the rock pile, located in southeast corner of garden area
- To park on the gravel and use the wheelbarrow to service your plot
- I understand that neither the garden group nor owners of the land are responsible for my actions.
